Ref: Susan Brooks

I am pleased to recommend Susan Brooks in the capacity of educational psychologist. Susan worked with Hertford Regional College Learning Support Service for 2 years during my tenure as Learning Support Manager. During this time I found Susan to be extremely flexible, rigorous in her assessments and efficient.

We used Susan primarily to assess learners with very complex needs or where little or no progress was being made and undiagnosed learning delays were suspected. On each occasion Susan was able to assess the learners and provide us with a set of robust recommendations. One of Susan's strengths was her ability to ensure her recommendations were reasonable and workable given the various restraints within which FE Colleges are compelled to operate. This endeared her to our tutors and made her an important and valued member of our team.

I have absolutely no reservations about recommending Susan to you and am confident that your experience of her will bear out my testimony. However, if you wish to ask any further questions please feel free to contact me on 01484 536521 or pkelly@huddcoll.ac.uk.

Yours sincerely

Patrick Kelly
Head of School – Foundation Studies
